

Station construction continues at the future Mount Pleasant Station

June 11, 2024

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Mount Pleasant Station. Following completion of tunnel boring activities, the TBMs' conveyor belt infrastructure has been removed from the station, opening additional space for station construction. Throughout 2024, work will continue to focus on constructing the underground station. This includes regular concrete pours for the walls, columns and concourse levels. There is also work happening in the tunnels to prepare for track installation.

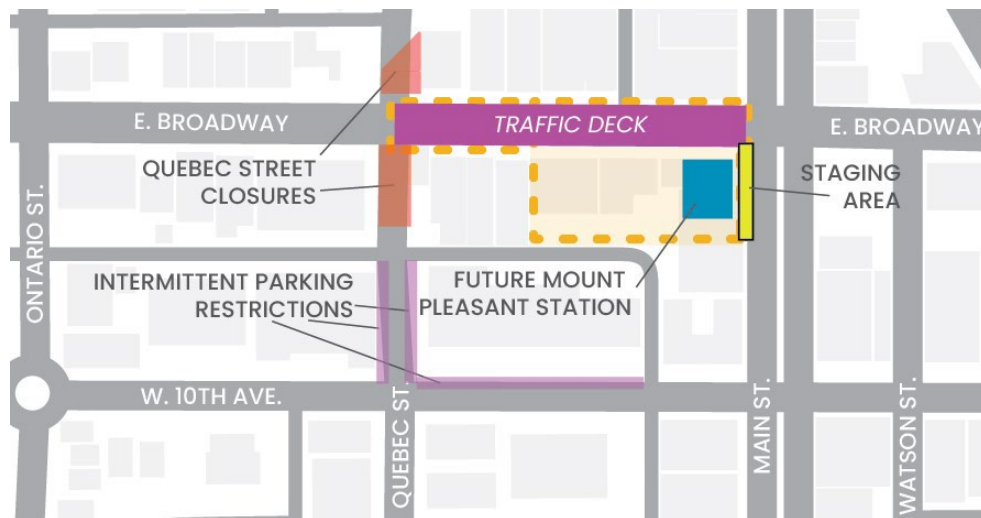

Timing

- Regular hours of work are Monday to Saturday from 6 a.m. to 10 p.m. There may be occasional work on Sundays or holidays.
- Occasional overnight work from 10 p.m. to 6 a.m.

What to expect

- Continued trucking activities. Concrete trucks are required to have their engines always running to keep their drums turning, and to use traditional back-up alarms for crew safety.
- Occasional night work, including lighting directed at the site as needed to ensure crew safety.
- Crane activity.

Mitigation measures include, but are not limited to, conducting the noisiest work during the day and shoulder hours, installing white noise back-up signals on equipment, using hand-tools when applicable. Please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs. Check out our Project [photos and videos](#) for more details on how we are building the future stations.

Further details

Timing

- This phase of construction is continuing through 2024.
- Station construction and fit out will complete in 2026.

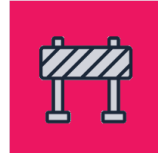

Hours of Work

- Monday to Saturday with occasional work on Sundays and holidays: 6 a.m. to 10 p.m.
- Occasional night work: 10 p.m. to 6 a.m.

Traffic

- No street parking on Broadway between Quebec and Main streets.
- For more information about parking on Broadway, check our [parking and access maps](#) page.
- Occasional closures of curb lanes for staging and deliveries:
 - Main Street southbound curb lane south of E. Broadway; and
 - E. Broadway eastbound curb lane between Quebec and Main streets.

Impacts/Interruptions

- Intermittent elevated noise related to activities that include, but are not limited to, crane movement, deliveries, rebar installation, and concrete activities.
- Continued trucking activities. Concrete trucks are required to have their engines running at all times to keep their drums turning, and to use traditional back-up alarms for crew safety.
- Lighting focused on our site as needed to ensure crew safety.
- Access for all abilities will be maintained to residences, businesses, and services.
- Pedestrians will be detoured around work zones as required.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
